

A new standard for trade payments

Global Trade Payment Platform

Start paying your suppliers with a Visa card

Overwhelmed with administrative tasks
for supplier payments?
Looking for a more secure payment method?
Want to enhance your working capital cycle?
Let GTPP handle it,
so you can concentrate on your business.

What is GTPP?

GTPP is a platform exclusively for Visa, enabling Korean suppliers and buyers to conduct trade payments using their Visa cards.

Fees

There are no membership or subscription fees, only a 1.5% charge on the payment amount, which can be split between the buyer and seller.

Service areas

(with continuous expansion planned)

Year	Country
2024	Taiwan, Japan, United States, Mexico, Singapore, Mongolia, Vietnam, Guam
2025	China(Hong Kong), Australia, Malaysia, Indonesia, Philippines, Thailand, Germany
2026	Canada, Poland, Netherlands, Turkiye, Hungary, India

Transaction Limit

Each transaction can be up to US\$750,000, but your bank will set your credit card limit based on your financial stability.

Key features of GTPP

1 Safety

Secure transactions with verified Korean suppliers and buyers.

2 Convenience

Simple credit card payments without complicated remittance.

3 Liquidity

Buyers repay credit card balance in 40-50 days.

4 Economy

Low 1.5% fee shared by suppliers and buyers for 40-50 days of working capital.

Payment flow

Korean suppliers access GTPP to submit payment requests to their buyers.

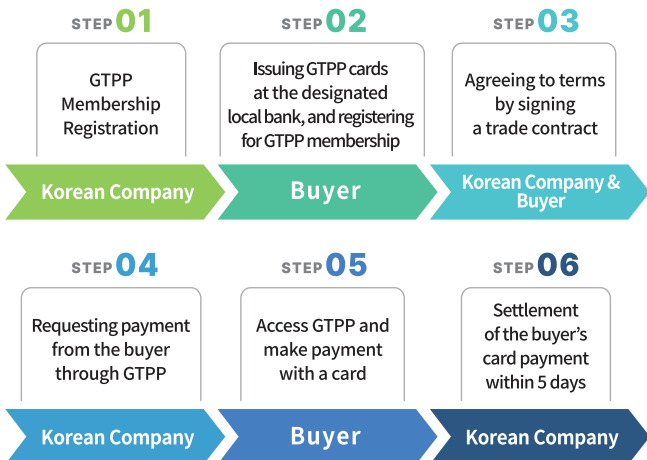

Buyers get payment requests at their GTPP-registered email.

When the buyer clicks a link on the payment request email, it takes them to the GTPP payment page.

If satisfied with the payment details, the buyer uses their GTPP credit card to pay.

Amendment / Cancellation of the payment

Once the buyer pays via credit card, the Korean company will receive the funds in their GTPP-registered bank account within 5 business days. The payment can be canceled or amended if both parties agree.
